EXPERIENCE THE ELEGANT
FISCHER & KERRN ROOM PANEL PREMIUM

Optimize the room booking process and provide your users with information about room availability with this beautiful meeting room panel from Fischer & Kerrn.

The Premium panel is a perfect facility management touch panel that complements any kind of workplace - this in other words - a top modern solution.

The super elegant Fischer & Kerrn Room Panel Premium comes with many user-friendly and cool features: Antimicrobial panel, energy saving function, card reader and much more. Premium runs on Android 12 OS with a 64bit architecture.

The Fischer & Kerrn Room Panel Premium is nothing like you have ever seen before. With its supreme design and true aerospace grade metallic unibody and frame construction, this room panel delivers an excessive elegant look-and-feel. The bright LED lights provide information about availability and the RFID card reader enables you to check-in to meetings and book rooms using your RFID employee card.

10.1" POE MEETING ROOM PANEL

- Book, extend, and end meetings.
- check-in to your meeting.
- Show room capacity.
- Show equipment in the room and report broken equipment.
- Possible to release the room booking if no one shows up.
- Track no shows.
- Reporting and analytics.
- User authentication via RFID card or pin code.
- Limitless layout possibilities.

Other rooms

The LED lights make it easy to see if the room is occupied or available.

The Fischer & Kerrn Room Panel Premium is elegant in a way you have not seen before. With its elegance it blends perfectly into any modern workspace. The bezel is tighter than ever to give the user the best view of the designed layout

The layout is designed to make it easy to book the meeting rooms as it clearly shows information about availability, upcoming meetings, capacity and nearby available rooms. The Room Panel comes with a central management tool that allows you to manage all your devices remotely.

BRIGHT LED LIGHT
AND RFID CARD READER

The LED lights can be set matching to your needs. The lights can indicate with green, red and amber if the room is available, occupied or soon will be occupied.
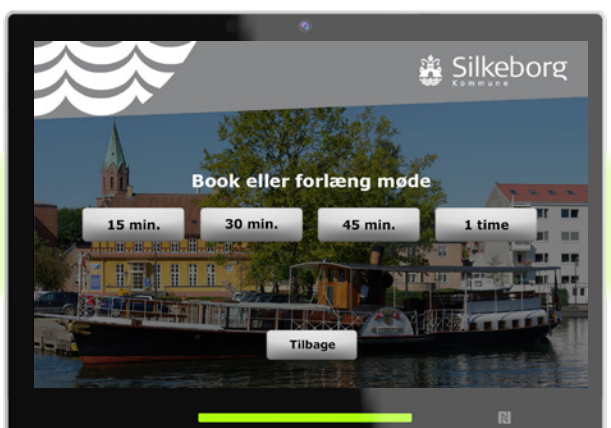

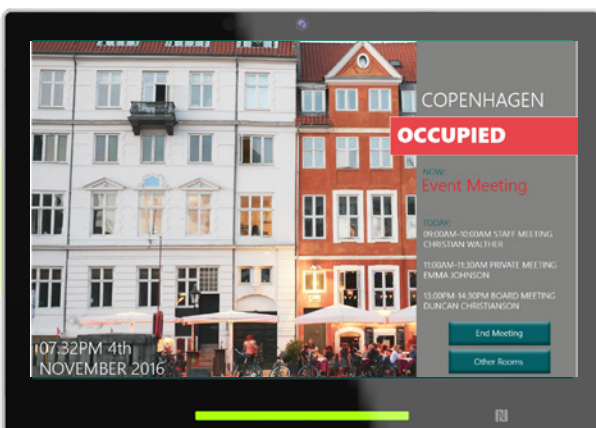

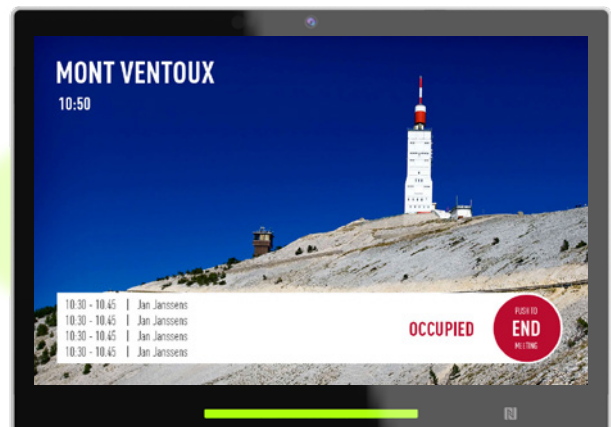

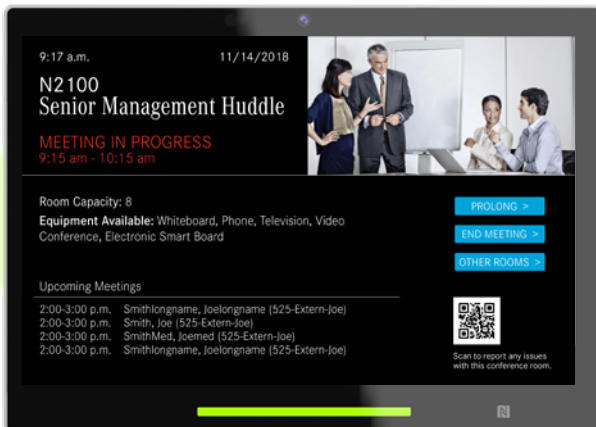

The lights can also flash when a check-in is needed. User authentication has been made easy with the RFID/NFC card reader.

You can check-in to your meetings with your RFID card or you can enter a PIN code. It is also possible to book, extend, and end your meetings with your RFID card.

LAYOUT POSSIBILITIES

Your corporate identity can be incorporated and customized in the layout.
Our designers can help to create the layout so it matches
your professional expression.

CENTRAL MANAGEMENT

Set opening hours, update firmware and much more!

Easy administration of your conference room displays is important and timesaving.

All your Fischer & Kerrn Room Panels are managed from a central administration tool where you can set opening hours on your screens, see status on your room panels and push out new meeting room links if updates are necessary.

If you need to reboot a screen or update firmware, it can of course also be done from the administration tool.
